

ROCKTAPE

Go stronger, longer

Used by pro
cyclists, runners,
triathletes, adventure
racers and more!

ENDURANCE TAPE FOR ATHLETES

ROCKTAPE is about going faster, harder, longer and farther. ROCKTAPE can help almost any athlete achieve better results by reducing fatigue and increasing endurance.

We've all seen the funny tape on our favorite athletes and wondered, what is that stuff? What does it do? Well, wonder no more. ROCKTAPE is a new type of tape designed to help athletes manage fatigue.

FAQ

What does it do? ROCKTAPE does two things: reduces muscle vibration which can cause fatigue and helps promote blood flow.

How does it work? When applied properly, ROCKTAPE lifts the skin away from the muscle, which promotes blood flow. Faster blood flow means more oxygen and more lymph drainage, which helps remove Lactic Acid.

Is it difficult to apply? Not at all. If you can apply tape, you can apply ROCKTAPE. There are instructions in every box and more than a dozen HD instructional videos can be viewed at ROCKTAPE.COM.

Will it work under compression shorts? When worn under compression shorts, ROCKTAPE's lifting mechanism is unavailable. But as soon as the shorts are removed, the tape can begin to lift and help promote recovery.

How long will it last? ROCKTAPE can be worn 2-3 days. It is 100% organic cotton and can be worn while swimming or in the shower.

How much does it cost? Each roll retails for \$19.95. A roll will last for about 10-20 applications, or about one to two months, depending on frequency and length of applications.

US National Track Champion, PROMAN TEAM Member and 2012 Olympic Hopeful Shelley Olds: "ROCKTAPE is perfect for long road rides or multi-day races, anytime you need help managing fatigue and recovery...."

ROLLS

order as many as you like in any colors;
mix and match and get wacky with it!
